- **Activation Shortcuts**
- **Phone Basics**

Your Phone Layout

Get Your Phone Ready

Insert the Battery

- 1 Find the notch on the back cover. Using your fingernail, lift up gently to open the back cover.
- 2 Insert the battery, contacts end first, and gently press the battery into place.
- 3 Place the back cover onto the back of the phone and press down. Press along the edge of the back cover until you have a secure seal.

Charge the Battery

- 1 Plug the micro-USB connector into your phone's Charger/Accessory jack.
- 2 Plug the charging head into an electrical outlet.

Note: It is recommended you fully charge the battery before using your device for the first time.

Activate Your Service

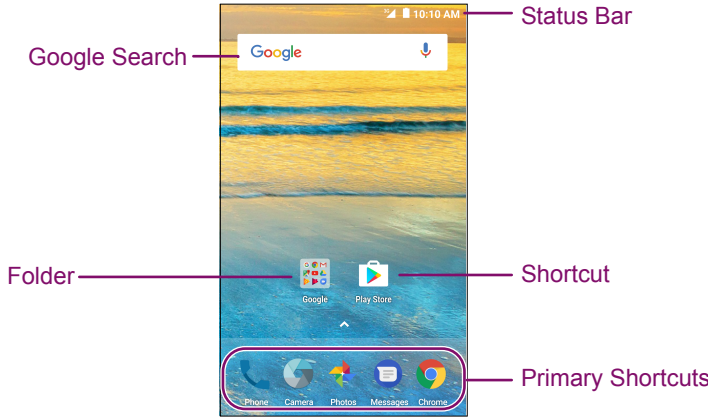

Before using your phone, you need to activate your service.

- 1 Press and hold the **Power Key** to turn your phone on.
 - Allow hands-free activation to connect the phone to our network and then allow the phone to check for any updates.
 - The phone will power off.
- 2 After the phone turns back on, the device may ask you to complete a few setup screens to customize your phone.

Note: The safety information and limited warranty can be found on the phone when you tap > > **Settings** > **About phone** > **legal information** > **Warranty**.

Your Home Screen

- Tap  to return to the main home screen from any other screen.
- To view extended screens, swipe the screen left or right.
- To view notifications, drag the status bar down. Tap a notification to open it.
- If an app is on your home screen, just tap it to open it.
- If an app is not available from your home screen, tap **Apps list**  and then tap the app icon.
