Your Galaxy™ Nexus™

Rechargeable
Battery

AC charger with USB port

Micro-USB cable

Headset

Your Device

Get Your Device Ready

Install the Battery

1. Place your fingernail into the battery release notch above the camera lens and lift off the back cover.
2. Align the battery's contacts with those inside the battery compartment and gently press down until the battery is seated.
3. Replace the back cover.

Charge the Battery

1. Plug the charger into an electrical outlet.
2. Plug the larger end of the USB cable into the charger.
3. Plug the smaller end of the USB cable into the USB port on the bottom of your device.

Turn the Device On

- Press and hold  to turn your device on.

Setup Application

The setup application helps you set up various options and applications, including setting up your Google™ Account.*

Complete the Setup Application

1. When the device is first turned on, the setup application should automatically begin.
2. Touch **Start** and follow the prompts to complete the setup application.
 - **Make it Google** - Create or sign in to your Google Account. If you're creating a new Google Account, be sure to provide a recovery email address.
 - **Join Google+™** - If you're not already signed up for Google+, you can do it here. (Optional)
 - **Backup and restore** - Choose whether or not to back up data with your Google Account. If you have an existing Google Account, this option automatically syncs your current information, contacts, and more with your device.

- **Use Google location** - Touch the check marks to select your Google location options.
- **This phone belongs to** - Enter your first and last name.
- **Google services** - Check your Google service content. This option only appears if you do not sign into your Google Account.
- **Setup complete** - Touch **Finish** to complete the setup application.

** You don't need to sign up for a Google Account to use your device. However, to take advantage of automatic backup, download apps, books, music, or movies from Google Play™, access your contacts and other information from your other devices or computers, or use other Google services, you must link your device to a Google Account.*

Activate Your Device

- If you purchased your device at a Sprint Store, it is probably activated and ready to use.
- If you received your device in the mail, and it is for a new Sprint account or a new line of service, your device is designed to activate automatically when you first turn it on. To confirm your activation, make a phone call.
- If you received your device in the mail and it is going to be activated on an existing number on your account (you're swapping devices), you can activate on your computer online or directly on your device.

Activate on your computer:

Go to sprint.com/activate and follow the instructions.

Activate on your device:

1. Turn on your new device. (Make sure the old one is turned off.) Your device will automatically attempt Hands-Free Activation.

Note: Your device will need to complete one hands-free activation attempt before you can continue.

2. Touch **Activate** to override auto-activation and start the manual activation wizard.

*Note: If you don't override Hands-Free Activation, your device will attempt to auto-activate five times. Wait for **Retry** to appear on your screen. Touch **Retry** and then touch **Activate**.*

3. Follow the on-screen prompts to complete the activation process.
4. After you have completed the wizard, make a phone call to confirm your activation.

If your device is still not activated, contact Sprint Customer Service at **1-888-211-4727** for assistance.

Voicemail

Access Your Voicemail

1. Touch  > .
2. Touch and hold .
3. If this is the first time you have accessed voicemail, follow the voice prompts to create your password and record your name and greeting.

Responsibility

At Sprint, environmental responsibility is more than talk. We're continuously working to reduce our carbon footprint and decrease our use of natural resources.

So where is my user guide?

In an effort to increase our responsibility efforts, we've put expanded instructional materials online for you. Just visit sprint.com/support from any computer to access your complete user guide and other support materials.

What else has Sprint been doing?

Plenty. To find out just what we've been up to, visit sprint.com/responsibility.

This guide is printed with soy inks and contains up to 30% post consumer paper.

Register

By registering your Galaxy Nexus device at www.samsung.com, you are entitled to:

- Premium service through your choice of live chat, email and/or phone.
- Access to specialized call center staff to help you get the most from your purchase, including available software, how-to guides and product tips and tricks.
- Extended call center hours.
- Galaxy Nexus product user manual.

As an owner, you can write a product review, shop for accessories and receive exclusive Samsung offers.

The services described in this guide may require a subscription to a service plan and/or may incur additional charges. Not all services will work on all devices. Sprint 4G coverage is not available in all markets. See sprint.com/coverage for more details.

Important Privacy Message. This device is capable of determining its/your geographical location. To set controls for access and use of your location information by others, touch  and touch **Settings > Location services**. Select **Google's location service, GPS satellites**, and/or **Location & Google search** for location settings. Follow any applicable prompts. These settings for the use of location information can be turned on and off. For some applications and services you select, a device must be turned on and set to allow collection of location information in order to function.

Please be advised that if you use a third-party application, the application may collect your personal information or require Sprint to disclose your customer information, including location information (when applicable), to the application provider or some other third party. Sprint's policies do not apply to these third-party applications. Please carefully review the application's terms of use and/or the application provider's policies for more information about how the application will collect, access, use or disclose your information before using a third-party application. Terms of use and other policies usually are available on the application provider's website.
